A lot! This may be hard to believe, but you will reap the following benefits by signing up with us.

1. It is risk free; you do not need to pay anything
2. You will enjoy the same benefits of traditional media, only far cheaper. We will advertise your business on our site and the deal as well
3. Increased profits, as you have always wanted
4. New customers will be added to your roster of valued, loyal patrons
5. Chance for you to up sell, since there will be a lot of new faces; they still don't know all the products or services you offer, so it would be a treat if you simply talk to them and if they like what you are offering, it would be added sales for your business!
6. There will be a viral effect since we will be tapping our social networking sites to help promote your business, therefore all of our followers will know the irresistible deals that you are offering!
7. You will be pre-paid as soon as the promotional period ends and to top it off, even if the customers don't use their vouchers, you will still get to keep the money.
8. The commissions that we charge are far lesser than what the competition is offering.
9. Guaranteed volume every time you run a deal with us.
10. In the event that the deal does not work out as planned, we will not stop until we create a blockbuster-hit deal for you and your business. This is how we treat our business partners.
